

Specialised  
Speech Pathology

# *Specialising in online Speech Pathology for adults, adolescents and aged care.*

- **Online Speech Pathology intervention, anywhere, anytime**
- **We care deeply about supporting speech, language and swallowing which are vital components of human connection and fulfillment.**

Specialised Speech Pathology (SSP) was sparked by a passion to use Telehealth solutions to improve the lives of Australians.

SSP service makes a positive impact on the lives of people every day: Simple things can make a huge impact.

## ANYWHERE, ANYTIME

Flexible, reliable and experienced support for individuals with communication and swallowing challenges.

## COMMUNICATION

We offer specialist treatment for a wide range of speech & language difficulties, using a tailor-made & person centred approach.

## SWALLOWING

Our Speech Pathologist can help with difficulties eating, drinking and assist with safety and enjoyment during mealtimes.

## ABOUT US

Specialised Speech Pathology (SSP) helps adults, adolescents and seniors communicate, swallow and lead a quality and connected life. SSP was sparked by passion to use Speech Pathology to improve the lives of all Australians, anywhere and anytime. Founder Tasha-Bea discovered hundreds of thousands Australians needing better and more accessible Speech Pathology services. SSP was born to fill a niche, provide a great service and bring together a team of talented and caring Speech Pathologists. We work with people from across all states and territories of Australia. Distance is no barrier! Some of the people we work with are from rural and remote regions and others are based in cities. We deliver services in people's homes, aged care facilities, day programs or supported independent living facilities.

## WHY CHOOSE SPECIALISED SPEECH PATHOLOGY

01

**High quality services:** All of our Speech Pathologists are highly qualified and experienced. We bring a blend of skill and personality

02

**No travel or wait lists:** Our services are perfect for those that want quality therapy, but don't wish to wait years to receive it. Therapy is delivered online, which means you don't need to pay for travel.

03

**It's easy and works:** We use a very simple videoconferencing software that is user-friendly. We also make sure that you are set up and ready to go before your session. Telehealth therapy is as effective as face to face therapy. Our clients report a high satisfaction when using our services.
